

# **ASSIGNMENT 4:**

## **Bootstrap: App Landing Project (Module 7: Lecture 9)**

**Problem Statement:** This project focuses on creating a sleek and functional app landing page using Bootstrap CSS. The landing page will feature a responsive navbar, a three-bar menu, a striking jumbotron, a three-card grid display, and a well-designed footer. The goal is to provide a professional and appealing interface that highlights key features and functionalities, ensuring a seamless and engaging user experience.

**Submission:** You need to upload the **compressed zip file of your working project folder** to drive and then submit the accessible link (**make sure to enable sharing access**).

**Reference:** For reference, as mentioned above please follow **MERN Stack course >Module 7 >Lec. 9**
