ASSIGNMENT 1:
HTML: Putting it all together (Module 2: Lecture 16)

Problem Statement: You need to develop the "HTML Project: Putting It All Together". This project aims to demonstrate your ability to create a cohesive and well-structured single webpage using fundamental HTML elements. This project will encapsulate various aspects of HTML learned so far in the course, including text formatting, embedding media, and linking to other web resources.

Submission: You need to upload the compressed zip file of your working project folder to drive and then submit the accessible link (**make sure to enable sharing access**).

Reference: For reference, as mentioned above please follow **MERN Stack course>Module 2>Lec. 16**

To know how to zip the file exactly, follow the below steps:

- Right click on the folder
- Click on send to
- Then on compressed zip

Refer to the below video if you still face any issues:
